

IN THE SPECIFICATION

Please amend the indicated portions of the specification as follows:

[0024] Fig. 9 illustrates a system 200 which includes an articulating arm 202 having three arm segments and two joints. The first arm segment 204 extends from the aperture in the cover 20 and is rotatably affixed ~~[[the]]~~ to the middle arm segment 206 at a first joint 210. The middle arm segment 206 is in turn rotatably affixed to the third arm segment 208 at a second joint 212. Additional arm segments and joints may also be included. The joints and joint assemblies in the system 200 of Fig. 9 are like those previously described.
